MEMORANDUM FOR: DD/S&T

SUBJECT : 9 O'clock Meeting - 11 December 1963

1. The DCI was briefed on the FMSAC discussion with General Carroll, et al., on 10 December. We explained that it went as well as could be expected; that General Carroll was non-committal and we would hear from him in 10 days.

2. I reported that Ledford was meeting with McMillan today, 11 Dec., at 1500, to discuss [redacted] 25X1  
[redacted] McMillan has proposed joint CIA-JRC planning to include USIB and Special Group actions with SAC execution. The DCI indicated he wants to see this paper before it is distributed. We must hold until he is available. He is going to take some convincing on the requirement.

3. Mr. Bross reported on his conversation with Fubini regarding FMSAC and indicated he had some private comments for the DCI regarding the NRO. Carter indicated that McMillan had talked to the Washington Post regarding the satellite article and that the Air Force PIO will talk to Holts, editor of Aviation Week, asking him to hold down the article.

4. The DCI, in discussing a recent letter from the BOB, was extremely insistent that he felt the Agency needed tightening up. He wants to have a response by the end of December. He is going into it in great detail. He specifically mentioned going into the NPIC/COMMO manning problem. He further indicated that he thought that DD/P and the DD/I could be tightened.
